

About Caroline Boudreaux

After a chance encounter with an orphaned toddler in rural India during a vacation in 2000, Caroline Boudreaux returned to the US, left her lucrative advertising career, and began bringing life-changing care to the world's orphans, starting in India.

Caroline invested her life savings and founded the [Miracle Foundation](#) on the idea that all orphans deserve a childhood, clean water, nutritious food, high-quality healthcare, an excellent education, and a loving home, so they can reach their full potential.

Caroline has tackled countless barriers, fought corruption, recruited a world-class leadership team, built a cohesive international organization, and enlisted an army of business people, tech giants, doctors, child development experts, and donors to create a brilliant methodology that ensures the “miracle” of a happy childhood for orphaned girls and boys.

Her award-winning efforts have resulted in improving the lives of more than 2,500 children in 16 years. The Miracle Foundation currently supports 21 orphanages in India.
